**SCOPING MEETING ANNOUNCEMENT
PROPOSED LA/ONTARIO INTERNATIONAL AIRPORT MASTER PLAN
ENVIRONMENTAL IMPACT REPORT**

The Los Angeles World Airports (LAWA) is preparing an Environmental Impact Report (EIR) pursuant to the California Environmental Quality Act (CEQA) for a proposed Master Plan for LA/Ontario International Airport (LA/ONT).

A public and agency scoping meeting is encouraged by CEQA to hear comments on issues that need to be considered in the EIR. LAWA will hold a scoping meeting for this project to solicit input from the public and various Federal, State, and local agencies that have jurisdiction by law or have specific expertise with respect to any environmental impacts associated with the proposed projects. **A scoping meeting in an open workshop format will be held on September 5, 2007 at LA/Ontario International Airport in the old Terminal 1 Building/Administration Offices at 1940 East Moore Way, 1st Floor Lobby, Ontario, California 91761. The meeting will be held in two sessions from 2:00 PM to 4:00 PM and from 6:30 PM to 8:30 PM.**

The City is requesting input from interested government and quasi-government agencies, other organizations and private citizens regarding the scope and content of environmental information to be included in the EIR. Public agencies receiving this notice may need to use the EIR prepared by LAWA when considering their permits or other approvals for the proposed project.

Questions regarding the scoping meeting may be directed to Ms. Eileen Schoetzow, City Planning Associate, Regional Airports Planning Division at (310) 348-2573.

As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability. The facility and its parking are wheelchair accessible. Sign language interpreters, assistive listening devices, or other auxiliary aids and/or other services may be provided upon request. To ensure availability of services, please make your request no later than three working days (72 hours) prior to the workshop by calling (310) 646-7690.
